Screenshot of build first failing because of permissions:

Changed './build.sh' to 'chmod +x build.sh && ./build.sh':

Fixed assertion error and everything ran fine:

```java
public class Calc {
    public int add(int a, int b) {
        return a + b;
    }
    public static void main(String[] args) {
        Calc c = new Calc();
        assert c.add(3,3) == 6;
    }
}
```

```
                                                                    X∃ Remove log        ↓⃗ Raw log
